2. SELECTION

The admissions committee gathers and analyzes the applications of the candidates including the statement of purpose, letters of recommendation, the GRE and TOEFL scores. Afterwards a ranked list of the *candidates to be admitted* is created, assigning to each candidate a level of recommendation for admission. At the end of the meeting, the committee writes and signs a report.

The report will contain a list of the committee members and their institution, a list of all applicants, the criteria for the evaluation process, and the ranked list of candidates to be submitted for attribution of the

FCT (Fundação para a Ciência e a Tecnologia) scholarship. The candidates with the best scores (level of recommendation) are the first to be contacted, until the proposed number of the scholarships is reached. The written and signed reports of the admissions committee are sent to the ICTI@Portugal office.

3. INFORMING THE CANDIDATES ABOUT THE SELECTION OUTCOME

Based on the list of candidates to be admitted, Carnegie Mellon University informs the prospective candidates of their admissions status. Each candidate will be given a deadline to accept or decline the admissions offer.

The list of candidates who accepted the offer is sent to the direction of ICTI, which then gathers all necessary items, including the admissions committee reports and makes the submission of the formal request for Ph.D. scholarships to the President of FCT.
